Portfolio: alireza-akbarzadeh.vercel.app   Email: work.alireza.akbarzadeh@gmail.com

🔍 **SUMMARY**

Frontend Developer with 6+ years of experience building scalable, high-performance web applications using React, Next.js, and TypeScript. Specialized in performance optimization, responsive design, UI/UX excellence, and frontend architecture. Proven ability to deliver exceptional user experiences, mentor junior developers, and collaborate across cross-functional teams. Passionate about continuous innovation, clean code, and scalable design systems.

📈 **KEY ACHIEVEMENTS**

- 🚀 Increased platform performance by 30%, leading to 25% higher user retention and improved SEO.
- 👨‍🏫 Mentored 5+ junior developers, reducing overall bug reports by 20% across multiple projects.
- 🛠️ Architected scalable documentation (Storybook, Docusaurus), reducing onboarding time by 25%.
- 📈 Integrated real-time cryptocurrency data (TradingView), boosting engagement by 20%.
- 🔐 Implemented JWT/OAuth authentication, reducing unauthorized access incidents by 35%.
- 📱 Enhanced mobile responsiveness (React Native, TailwindCSS), increasing mobile traffic by 15%.
- 🧵 Led frontend migration to monorepo architecture (Nx Workspace, TurboRepo), cutting deployment times by 30%
- ⚡ Achieved 99.9% uptime post-deployment through SSR/SSG optimization and lazy loading strategies.
- 🖼️ Reduced page load times by 20% through Sharp library image optimization.

🏛️ **PROFESSIONAL EXPERIENCE**

SENIOR FRONTEND DEVELOPER | TAPSI SHOP   TEHRAN, IRAN | 06/2022 – PRESENT

- Designed and developed scalable, user-friendly web applications using React, Next.js, TypeScript, and TailwindCSS.
- Optimized platform performance, improving SEO rankings and reducing load times by 30%.
- Mentored 5+ developers through code reviews, improving code quality and reducing refactoring needs by 20%.
- Implemented advanced form validation and management using React Hook Form, reducing form error rates by 25%.
- Built and maintained component libraries using Storybook for better reusability and onboarding speed.
- Created full project documentation with Docusaurus, improving developer experience and cutting onboarding time by 20%.
- Led frontend testing strategy using Cypress and Jest to ensure reliability and reduce bugs by 20%.
- Migrated legacy codebases to modern TypeScript-based architecture, improving maintainability and reducing technical debt by 35%.
- Collaborated closely with product managers and designers to implement new features based on user research, improving user satisfaction scores by 15%.
- Enhanced collaboration via Git, Azure DevOps, and Agile methodologies (Scrum/Kanban).
- Website: tapsi.shop

FRONTEND DEVELOPER | DIGIALPHA TEHRAN, IRAN | 04/2021 – 04/2022

- Developed a responsive, mobile-first cryptocurrency platform using React, Next.js, and TypeScript.
- Integrated data visualization tools (Recharts, TradingView) to enhance real-time data display and interactivity.
- Improved security with JWT-based authentication, resulting in 30% fewer unauthorized access attempts.
- Boosted frontend performance by 25% using lazy loading, code splitting, and SWR data fetching.
- Conducted cross-device and cross-browser testing to ensure seamless user experiences across platforms.
- Led end-to-end testing initiatives with Cypress, achieving a 20% decrease in post-deployment bug reports.
- Optimized image handling with Sharp, improving site performance and user experience.

🎓 **Core Competencies**

Frontend Architecture | Performance Optimization | UI/UX Best Practices | Responsive Web Design | Mobile-First Development | Agile Collaboration | Cross-functional Teamwork | Team Mentorship | Scalable Systems Design

🛠️ **SKILLS**

Frontend Development:
React | Next.js | React Native | TypeScript | JavaScript (ES6+) | HTML5 | CSS3 | TailwindCSS | Sass | Styled Components

State Management & Data Handling:
Redux | Zustand | React Query | Apollo Client | GraphQL | REST APIs

UI Libraries & Systems:
Material-UI | Shadcn-UI | Radix-UI | Ag-Grid | Responsive Design | Cross-browser Compatibility

Testing & Documentation:
Cypress | Jest | React Testing Library | Storybook | Docusaurus

Performance Optimization:
SSR | SSG | PWA | SWR | Lazy Loading | Code Splitting | Sharp Image Optimization

Security & Authentication:
JWT | OAuth | RBAC (Role-Based Access Control)

Deployment & CI/CD:
Vercel | Netlify | Azure DevOps | GitLab CI/CD | Docker

Tooling:
Nx Workspace | TurboRepo | Webpack | Babel | Eslint | Prettier | Git

LICENSES & CERTIFICATIONS

- **Certificate Name : React Native**
- **Issuing Organization : Coursera**
- **Issue Date : may - 2023**
- **Credential ID : MPDH3LAWQFXC**
- **Credential URL: https://www.coursera.org/account/accomplishments/certificate/MPDH3LAWQFXC**

- **Certificate Name : Advance React**
- **Issuing Organization : Coursera**
- **Issue Date : april- 2023**
- **Credential ID : B72RTFCL9Y5E**
- **Credential URL: https://www.coursera.org/account/accomplishments/certificate/B72RTFCL9Y5E**

- **Certificate Name : HTML and CSS in depth**
- **Issuing Organization : Coursera**
- **Issue Date : april- 2023**
- **Credential ID : PUP96LAWTSTL**
